

2.0 DSS PE cod.14986

Technical specifications

AR Code	14986
Max Pressure (bar)	160
Max Pressure (psi)	2300
Max flow (lph)	460
Max flow (gph)	122
Power (Kw)	2.2
RPM	3400
Power (Hz)	50-60
Power (V)	220-240
Unit size (mm) LxWxH	330x307x790
Packaging size	360x340x815
Net weight (Kg)	10.3
Pallet qty	12
20 feet container qty	312
40 feet container qty	624
Truck qty	396

Product details

Using the POWER SWITCH it is possible to select the ECO SPEED WASHING and MAX SPEED WASHING modes, to modulate the performance level of the pressure washer, adapting it to lighter cleaning needs, with a considerable saving of water and energy (up to 30%), or more intense depending on the work to be done. By activating ECO SPEED mode you can dedicate yourself to cleaning non-aggressive dirt on external wooden surfaces, bicycles, wooden garden furniture, external fabrics, with optimized energy consumption and a better compromise between washing / consumption effectiveness.

By activating MAX SPEED mode you can dedicate yourself to cleaning aggressive dirt on stone, concrete and bricks, metal railings and gates, work and gardening tools, vehicles with standard energy consumption.
